**Cut Out Hole**  $\varnothing$ 25mm

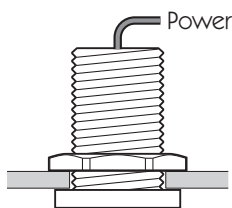

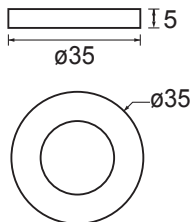

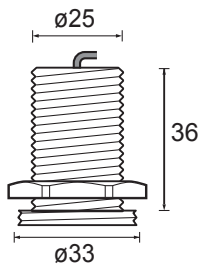

**Minimum Ceiling Void Depth** 45mm

**Maximum Material Thickness** 30mm

**Distance Between Screws** NA

**Accessories** Plug

**Weight** AL | BK | WH - 40g | RB - 46g

Ceiling Material

The Node Monopoint is the smallest of Precision Lighting's monopoint range. Designed primarily for displays and exhibitions, it can be fixed through panels up to 30mm thick. It is available in standard brushed aluminium, rubbed bronze, black and white finishes, with custom finishes available on request.

The Jack Plug system allows the luminaires to be easily removed for cleaning or relamping. The luminaires click into the Jack Plug socket, the threaded jacket then screws into position to lock the connection in place. Once fixed, the luminaires are free to rotate or alternatively, can be secured in place using two locking pins.

**Notes**

For Monopoint accessories please see spec sheet MPS-02.
