pitch across
strips

Fixed mounting bracket

Spring clip mounting bracket
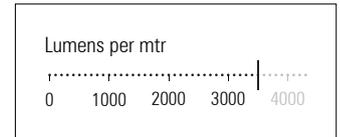

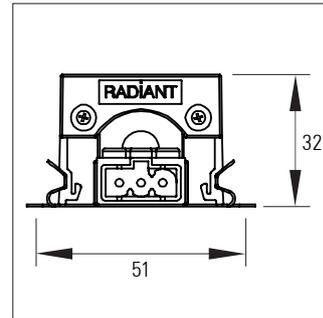

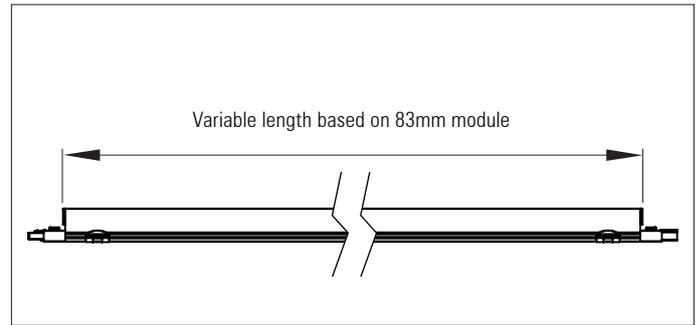

Euclid 40 IP 20

IP 20 rated LED linear lighting system

Product description:

Interior cove lighting applications

Integral DC to DC low voltage drivers. Remote 24 V DC power supply

0.3 Watt Samsung / Osram LEDs, without lenses

Up to 50 Watts per Mtr

Various LED colour temperature and CRI options available

Anodized or any RAL paint colour finish

Radiant can supply this system in custom lengths based on a 83 mm module.
Minimum length 170mm up to a maximum of 2.5 mtrs

Various mounting options and bracket types are available

16 Amp IP20 connectors join strips together on-site

Various dimming options available: 1 - 10, DALI, DMX. Separate dimming channel

Side, back and end power feed options allow continuous lighting without dark areas -
LED pitch is maintained between the individual luminaires
